E. SESSION SUMMARY:

The target involves biological research or medical examination. There is the concept of testing "bio-spheres" or "bio-spores". There is a sense that at least a portion of this testing takes place outside. There is also a sense that this is federally funded testing.

An object is held in an individual's mouth. Another object is spinning rapidly. An "organic" related portion of the testing has a spiralling configuration reminiscent of a DNA molecule diagram. There is the concept of cold and freezing associated with the target. There is an additional concept of "biochemical" and "bio-energetics". A light source is illuminating a circular area, which is under observation.

The target has a "medical" feel to it and something to do with death. Individuals are wearing green "suits". There are rows of "flaps" and an object which appears as an inverted "V". There is the concept of both soft and hard natural matter reminiscent of organically related material i.e. flesh and bones. The concept of skeletal material was implied. Material reminiscent of glass, grass and a type of liquid were also perceived.

An eyeball on the enemy—day, night, or bad weather—is the final connection in the target-finding system mounted on the nose of the U. S. Army's Advanced Attack Helicopter. In simulated combat, test pilot Bill Norton (left) sees in his electronic monocle an image of an enemy tank (right, at top). As he turns his head to follow the target, sensors in the cockpit monitor the movement of his helmet and aim the weaponry automatically. At his command, a laser-guided missile fires, runs to its target, and destroys the tank (sequence at right).

3. BACKGROUND:_____

----The following task is part of a document-access-series.

----The target is drawn from a variety of printed material that describe people, a place, an activity or a thing.

----The target consists of printed material only.

----The target focuses substantially on a single thematic issue.

4. ESSENTIAL ELEMENTS OF INFORMATION:_____

----Access and describe the substantial nature of the printed material.

----Identify the specific theme. aspect, etc.

---- Provide any phonetics that are pertinent to the material.

----Submit sketches in support of your findings.

5. COMMENTS:_____

----Optional Coordinates:__521836/091741_____

----Key words in the document will be underlined in red.

----Beacon person for this target is Fern.
